

PROFILE SUMMARY

Coordinator of technology workstreams for enterprise clients, translating business requirements into platform and architecture strategies, applying CRM expertise and agentic AI to drive delivery timelines and outcomes.

PROFESSIONAL EXPERIENCE

Backend Developer A3 , OSF Digital Feb 2025-Apr 2026

- Directed the shift to a stronger, **multi-step payment verification process** after assessing a current-state gap against rising security standards, **securing 100%** of customer CC transactions.
- Coordinated scrum calls and JIRA tracking across **global and localized teams**, closing delivery misalignment during critical cycles.
- Overhauled standard order reporting into automated, customizable formats aligned to business analysis needs, **cutting report generation time by 80%** every cycle.

Backend Developer Junior 2 , OSF Digital Mar 2023-Feb 2025

- Recommended a up-sell feature after spotting a gap in the subscription flow, partnered with stakeholders to **design and launch** it, lifting **attach rates by 15-20%** and boosting subscription revenue per customer.
- Implemented a **save-for-later** capability to **re-engage** users post-visit, contributing to **Average Order Value growth**.

Backend Developer Junior 1 , OSF Digital May 2022-Mar 2023

- Streamlined the product listing page to persist filter and navigation state across sessions, improving **return-visit engagement**.
- Architected a **scalable inventory foundation** that gave the brand the flexibility to **expand its catalogue** on demand, shortening the runway from **product concept to market launch**.

ACADEMIC PROJECTS/TRAINING

- Ideated an **ERP readiness tool**, designing an **agentic AI workflow** with phase-gated QA checkpoints that autonomously validated each development phase, condensing a multi-week review into a **same-day turnaround**, GLIM C, 2026.
- Analyzed manual **process flow bottlenecks** in cast nylon manufacturing, building a **simulation-based framework** to identify and test improvement scenarios, aiming to **reduce cycle time** and **manual dependency** in production, GLIM C, ongoing

QUALIFICATIONS
